Proceedings of the Indian Academy of Sciences

Volume 90, 1981

CONTENTS (Plant Sciences)

Embryogenesis in sexual and asexual species of *Zeuxine* (Orchidaceae)
K Ananda Karanth, B G L Swamy and Govindappa D Arekal 1

Comparative morphology of foliar sclereids in *Boronia* Sm. (Rutaceae)
T Ananda Rao and Jayasri Bhattacharya 9

Typology and taxonomic value of foliar sclereids in the Proteaceae 1. *Isopogon* R. Br.
T Ananda Rao and Silpi Das 31

Effect of some environmental factors on the asexual phase of *Peronosclerospora sorghi*
H Shekara Shetty and K M Safeeulla 45

Vein-endings in some Solanaceae
J A Inamdar and G S R Murthy 53

Investigations on cytogenetics and development of improved pest-resistant egg-plant germplasm
G R Rao 59

Metabolic studies in *Sorghum vulgare* Pers. and *Zea mays* L. during seedling growth
B S Afria and D Mukherjee 71

Sclereids in the endocarp of *Rauvolfia serpentina* (L.) Benth ex Kurz
Veena Gupta and L C Lamba 79

Ontogeny of the tricytic stoma—Variations and modifications
Parveen Farooqui (nee Kidwai) 85

Factors affecting the production of fruitbodies of *Amanita muscaria* in plantations of *Pinus patula*
F T Last, P A Mason, R Smith, J Pelham, K A Bhoja and A M Mahmood Hussain 91

Carpel infection and establishment of downy mildew mycelium in pearl millet seeds
S Subramanya, K M Safeeulla and H Shekara Shetty 99

The genus *Polygala* L. (Polygalaceae) in Andhra Pradesh, Kerala and Tamil Nadu (South India)
M Chandrabose and N C Nair 107

Histological changes in the gum resin producing cell system in *Commiphora mukul* Engl. induced by mechanical injury
G M Nair, Kamlesh R Patel and J J Shah 129

Fruiting of some light-requiring fungi as influenced by cellophane
T S Suryanarayanan and R N Swamy 137

Developmental changes in the vascular cambium of *Delonix regia* Rafin
A K M Ghouse and Shamima Hashmi 143

Comparative morphology and taxonomic value of foliar sclereids in *Limonium* Tour. (Limoniaceae)
T Ananda Rao and Silpi Das 153

Pollen morphology of some Flacourtiaceae
N Krishnan 163

Relative concentrations of Na, Ca and Mg for growth of some diatoms
V N R Rao, V Kannan and A Duraisamy 169

Ontogeny of the ovule, seed coat and fruit wall of *Dicoma tomentosa* Cass., Asteraceae
G Rajashekar 177

Effect of buffer and pH on growth and protein content of carrot (*Daucus carota* L.) in liquid shake culture
R P Singh, B D Singh and R B Singh 183

Effect of organic soil amendments on the rhizosphere microflora of tomato
Sudhir Chandra, Madhu Raizada and K K Khanna 189

Interesting new species of *Cassia* Linn. (Leguminosae) from Kolaba (Maharashtra)
M J Kothari, S Moorthy and M P Nayar 199

A new Brachystelma (Asclepiadaceae) from Kolar, Karnataka
Govindappa D Arekal and T M Ramakrishna 203

Kunstleria Prain—A new genus record for India and a new species in the genus
C N Mohanan and N C Nair 207

Mutation studies in *Mentha spicata* L.
S N Kak and B L Kaul 211

Cytologic, morphologic and chemotaxonomic studies in *Dactyloctenium aegyptium* (L.) Beauv. complex
S K Sachdeva and Rita Kals 217

Cytology of *Solanum nigrum* L., *S. retroflexum* Dunn. and their hybrids
G R Rao and Anil Kumar 227

Seedling handedness in Fabaceae
Bir Bahadur and M Madhusudana Rao 231

Seasonal variation and distribution of fungi in two freshwater ponds of Andhra Pradesh, India
C Manoharachary and P Ramarao 237

Ontogeny of the Anomocytic stoma—variations and modifications
Parveen Farooqui (nee Kidwai) 245

Revision of the genus *Sibbaldia* L. (Rosaceae) in India
B K Dixit and G Panigrahi 253

Erratum 273

Supplementary value of single cell protein from *Myrothecium verrucaria* to wheat protein
Ajit Singh, G S Dhillon and M S Kalra 275

Effect of irradiation and chemical treatment on yield and quality of *Brassica juncea* (L.) seed and oil
B Nagamani, T Kamala, T Chandrasekhara Rao and G Lakshminarayana 281

Cytomixis in pollen mother cells of an exotic variety of *Trigonella foenum-graecum* L.
N Lakshmi and P Veera Raghavaiah 285

Role of phenylalanine and tyrosine ammonia lyase enzymes in the pigmentation during development of brinjal fruit
P M Mehta and K Bhavnarayana 293

Studies on the algae of Ambazari water treatment plant
J L Tarar and Gouri Mazumdar 299

Morphohistologic studies on three herbaceous species of railway track
T Chakrabarty and Dilip Gupta 305

Cytomorphological studies in x-ray induced glandless haploids in *Gossypium hirsutum* L. (Cotton)
S S Mehetre and M V Thombre 313

Pharmacognostical studies on *Nymphoides macrospermum* Vasudevan (Menyanthaceae) and comparison with *Valeriana jatamansi* Jones (Valerianaceae)
Z Mary, J K Pattan Shetty and S N Yoganarasimhan 323

Pharmacognostic studies on the flower of *Woodfordia fruticosa* Kurz
Usha Shome, Shanta Mehrotra and H P Sharma 335

Effect of chemical reductant and photosystem II. Light on the yield of chlorophyll *a* luminescence in isolated chloroplasts
Prasanna Mohanty 353

Optimum cultural requirements for *in vitro* germination of *Amaryllis vittata* Ait (Amaryllidaceae) pollen
Savita Sharma, C P Malik and M B Singh 363

The family Plagiogyriaceae Bower in India
R D Dixit and Anjali Das 371

Sporulation of Pyricularia spp. : Stimulation by detached leaves and leaf extracts of *Commelina benghalensis* L.
Y Malleswara Rao and A Narayana Rao 389

Modification of sex-expression and fruit-formation on male plants of *Morus nigra* L. by chlorflurenol
V S Jaiswal and Aravind Kumar 395

On embryos and embryoids
B G L Swamy and K V Krishnamurthy 401

Growth, development and carbohydrates in purple nutsedge
P N Singh and S B Singh 413

Wood anatomy and histochemical changes of sapwood during heartwood formation in *Bridelia retusa* Spreng.
M N B Nair, J J Shah and R C Pandalai 425

Some histochemical observations on leaf abscission zone in *Capsicum annuum* L.
Karan Singh and Y S Murty 435

Cyperaceae : XVIII. A new section and a species in *Fimbristylis* (L.) Vahl, and its vegetative anatomy
E Govindarajalu 443

Amino acid composition and protein efficiency ratio (PER) of *Spirulina platensis*
D L N Rao, G S Venkataraman and S K Duggal 451

Studies on the developmental anatomy of Umbellifers. II. Stem-node-leaf continuum
S K Pillai and K B Kumar 457

Factors affecting infection by *Peronosclerospora sorghi* on sorghum
H Shekara Shetty and K M Safeeulla 465

The genus *Leucoscypha* (Pezizales) and the re-evaluation of its species occurring in India
K S Waraitch 471

Reproduction in two species of *Arundinella raddi* Poaceae
G P Basappa and M Muniyamma 477

Structure and ontogeny of stomata on the vegetative and floral organs in nine species of *Verbena*
L Mathew and G L Shah 485

Scanning electron microscopic studies on the seedcoat surface patterns of South Indian species of *Lindernia* All. (Scrophulariaceae)
V V Sivarajan 499

Microscopic examination of faecal pellets of insect larvae feeding on leaves of some cycads
D D Pant, D D Nautiyal and S K Chaturvedi 509

Profiles of illumination, leaf temperature and water relations of barley in dry and wet soil under field conditions
S K Yadav and D P Singh 515

Structure and development of normal and abnormal stomata in the seedlings of some Cruciferae
N V Rao and J A Inamdar 521

Development of resistance in *Gloeosporium ampelophagum* and *Colletotrichum capsici* to fungicides
M Sugunakar Reddy, S Ramapandu and A Appa Rao 535

Initiation of adventitious buds in tuberous roots of *Ipomoea batatas*
T K Prasad, P M Mehta and Y S Dave 541

On photoblastism in seed germination of *Duabanga sonneratioides* Ham.
R P Shukla and P S Ramakrishnan 547

Studies on salt tolerance of pigeon pea cultivars 1. Germination, seedling growth and some physiological changes
G Gururaja Rao, K V Ramana Rao and G Rajeswara Rao 555
